Report to Annual Meeting , April 24 , 2014

Since taking over the water maintenance contract, we have worked to the best of our abilities flushing water lines, cleaning screens, maintaining the Dam Site, and clearing grass and brush around the standpipes and hydrants in the water system.

Regular weekly maintenance is done at the Dam Site.

We inspect new installations as needed.

April 2013 through to November 2013 was regular maintenance.

December 2013 was regular maintenance as well as working to install emergency backup well.

January 2014 to March 2014 was regular maintenance.

April 2014 was regular maintenance and finishing installation of emergency bakup well.

Respectfully submitted
Greg & Ilma Matthews
